

The Chesapeake Public Schools Educational Foundation (CPSEF) is a non-profit 501 (c) (3) organization that works to promote and support the school division by securing both alternative and non-traditional funding sources. These include donations from businesses, employees, private citizens, trusts, endowments, and fund-raising events. The funds are distributed for projects including scholarships, teacher grants for creative classroom programs, and school needs including technology. Please consider designating this foundation when you donate to United Way or participate in the Combined Federal Campaign (the number is 14064) if you are military or a federal worker or the Combined Virginia Campaign (the number is 3347) if you are a state employee. This is an excellent way to provide extra assistance to your children's public schools.
