

Microsoft Office 2010

Chesapeake Public Schools has arranged with JourneyEd.com to provide all students, faculty and full time staff the opportunity to purchase the full Microsoft Office 2010 Professional Plus package (or the Home and Office for Mac 2011) at a great discounted price. This software is for your personal use at home.

You may purchase one copy of the software per eligible person (i.e. 2 children in CPS means you can get 2 copies for your household).

Click the JourneyEd.com icon to go to this site. This opportunity will also give you access to other software packages with significant discounts.

CPS is helping to make this available to you; however, we cannot provide any technical support with your personal equipment or software. Please contact JourneyEd.com or the software publisher if you experience any difficulties.
